

Router Message Flows (Router Message Flows: Provider-Initiated)				
App Server			EventHelix.com/EventStudio 2.0	
Providers		Router	Application	22-Nov-04 16:44 (Page 1)
timer	http	router	application	

LEG: Provider-initiated

The Provider Manager, which resides within the router, takes this action

This occurs at some later time when the app is uninstalled by an administrator or the server is shut down

--- 5 seconds later ---
